**Compare the price,  
not just the rating!**

Most companies determine substandard rates by applying a table rating factor<sup>1</sup> to standard rates.

American General Life applies a table rating factor, which are more favorable than the standard rates.<sup>2</sup>

Our table C and D premiums often beat lower table ratings from other carriers.

Rates current as of February 21, 2023

**Table B NT | Male, Age 40, \$500,000, 20-YEAR, Non-tobacco**

**Table C NT | Male, Age 40, \$500,000, 20-YEAR, Non-tobacco**

**Table D NT | Male, Age 40, \$500,000, 20-YEAR, Non-tobacco**

<sup>1</sup> Table rates refer to rates that are assigned because of significant health issues from one of the underwriting classifications beginning with "Table." These are more expensive than those of the lowest standard underwriting class to help the insurer compensate for the additional risk. These rates are increasingly more expensive based on the advancing letter grade.

<sup>2</sup> Applies only to non-tobacco underwriting class.
