¹ Except where noted, extended travel (greater than 6 months) will be considered on a case-by-case basis and may be underwritten as a residency case under our Foreign National guidelines. In addition, extended travel (greater than 6 months) outside of the U.S. or Canada will require facultative reinsurance if over our internal retention.

- All life insurance plans are available.
- Autobind up to \$41 million on Term and \$60 million on Permanent
- Jumbo Limit to \$65 million
- Individual Consideration for long-term travel (greater than 1 year)
- Individual Consideration for amounts over \$20 million, age greater than 70, rating greater than Table D.

Important Notes:

- For quoting purposes only. Quotes are not considered bound: our final decision at time of underwriting review may change if/when world conditions change. Each case will be individually underwritten and assessed.
- Country list and/or ratings will change quickly as world conditions change, and this publication may not reflect sudden changes in the world situation.
- Individuals residing or traveling in countries or jurisdictions under a current U.S. State Department Travel Warning will be considered individually (IC) and may be declined. Certain states prohibit Travel Warnings as the sole basis for an underwriting decision.
- Diplomats, embassy employees or missionaries assigned to a C, D or E country generally will not be considered for coverage. Missionaries assigned to A and B countries, and individuals taking short mission trips (21 days or less) to A, B, C or D countries will be considered.
