

Looking for added security for your family?

Our attractive product features offer flexibility with the ability to use your life insurance benefits while you are still living. It's life insurance you don't have to die to use.

SCENARIO

Security and flexibility for a special needs dependent.

Eric (45) and Cindy (42) Parker are in good health, with a 7-year-old daughter, Taylor, who has Autism.* Caring for Taylor is a commitment that may last well beyond their lifetime, so they need long-term, guaranteed life insurance protection. Their financial professional recommends a universal life insurance policy to help ensure Taylor's care. They are particularly interested in the optionality features of the policy: flexible death benefit guarantees, guaranteed cash value accumulation, and guaranteed access to funds.

A SOLUTION

A policy to help protect the whole family.

Under this agreement, two Secure Lifetime GUL 3 policies are purchased.

- Eric and Cindy each purchase a Secure Lifetime GUL 3 policy with a guarantee that lasts to age 105.
- Eric purchases a \$1,000,000 policy with an annual premium of \$10,793.¹
- Cindy purchases a \$250,000 policy with a premium of \$2,294.²
- The Parkers establish a trust for the benefit of Taylor, in the event that both parents die prematurely.

Policies issued by American General Life Insurance Company (AGL), Houston, TX and The United States Life Insurance Company in the City of New York (US Life), members of American International Group, Inc. (AIG).

Eric & Cindy purchase policies

\$1,250,000 of guaranteed death benefit protection for the family

Access to guaranteed cash value accumulation if needed

Income from the trust for Taylor will continue even after both parents pass away

SECURE LIFETIME GUL 3 IN ACTION

The Parkers collectively purchased \$1,250,000 of guaranteed death benefit protection, so if either Eric or Cindy dies unexpectedly, the Secure Lifetime GUL 3 policy will allow the survivor to receive the funds necessary to care for Taylor.

They also have the comfort knowing that:

- Guaranteed cash value accumulation can be accessed if the need arises, resulting in an adjusted guaranteed death benefit and guaranteed premium.
- For example, at year 40 (Eric age 85, and Cindy age 82), the two policies have a combined cash value of \$167,355.

Income from the trust will continue for Taylor's life after both parents pass away.
