

# QoL Flex Term

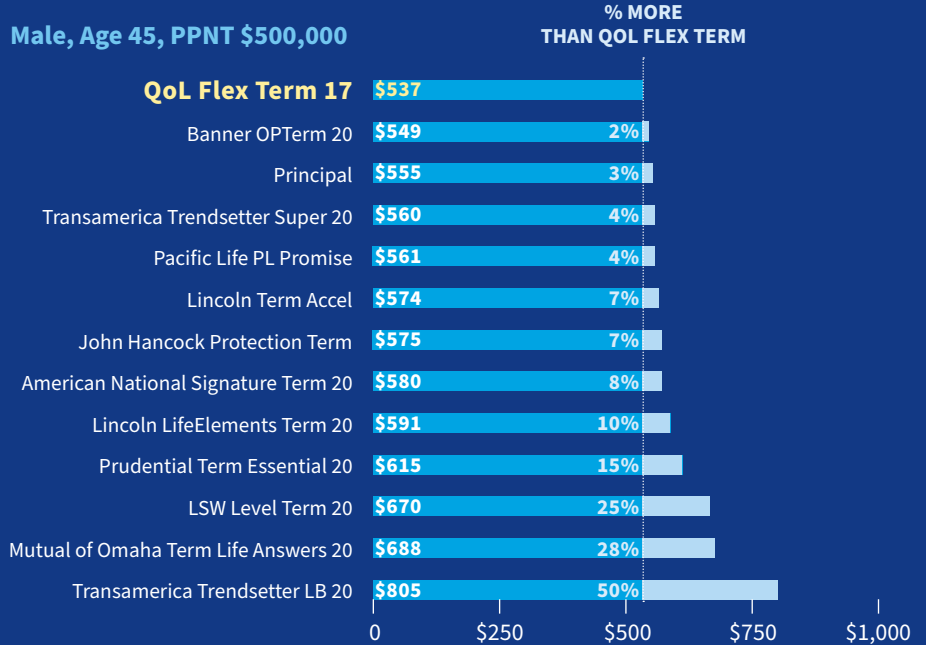

Offering the ability to pay only for what is needed

QoL Flex Term is one of the Quality of Life...Insurance® (QoL) products offered by American General that include built-in Accelerated Benefit Riders to give your clients the additional protection and flexibility to receive payouts from their policy during their lifetime if they suffer a qualifying illness or condition. Not only that, but, unlike most other term products, QoL Flex Term is offered in 18 different durations – 10-year, each year from 15- through 30-years, and 35-year. Your client can pay just for the coverage that is desired - and likely save - versus most other term products in satisfying the same insurance need.

**For more information, contact your financial professional.**

## See how QoL Flex Term's new and improved rates compare with top term competitors' 20-year premiums in a common scenario.

**Dave, a 45-year-old healthy male (Preferred Plus Non-tobacco), has a wife and three children. He has 17 years remaining on a \$500,000 mortgage. With QoL Flex Term, Dave can purchase a \$500,000 face amount policy for 17 years for an annual premium of \$547 to cover the remaining time left on his mortgage. To provide coverage for that duration with other carriers, Dave would have to purchase a 20-year policy.**

### Letting your clients pay precisely what they need for term life insurance protection can save them money.

QoL Flex Term has lower premiums than these other term products because Dave can select the duration he needs. Plus, with QoL Flex Term, he is rewarded with the peace of mind of built-in Accelerated Benefits Riders.

Choose Wisely. Choose QoL Flex Term.

**Important Consumer Disclosures Regarding Accelerated Benefit Riders**

**An Accelerated Death Benefit Rider (ABR) is not a replacement for Long Term Care Insurance (LTCI). It is a life insurance benefit that gives you the option to accelerate some of the death benefit in the event the insured meets the criteria for a qualifying event described in the policy. The rider does not provide long-term care insurance subject to California insurance law, is not a California Partnership for Long-Term Care program policy. The policy is not a Medicare supplement.**

**ABRs and LTCI provide different types of benefits. An ABR allows the insured to access a portion of the life insurance policy's death benefit while living. ABR payments are unrestricted and may be used for any purpose. LTCI provides reimbursement for necessary care received due to the inability to perform activities of daily living or cognitive impairment. LTCI coverage may include reimbursement for the cost of a nursing home, assisted living, home health care, homemaker services, adult day care, hospice services or respite care for the primary caretaker and the benefits may be conditioned on certain requirements or meeting an elimination period or limited by type of service, the number of days or a maximum dollar limit. Some ABRs and all LTCI are conditioned upon the insured not being able to perform two or more of the activities of daily living or being cognitively impaired.**

This ABR pays proceeds that are intended to qualify for favorable tax treatment under section 101(g) of the Internal Revenue Code. The federal, state, or local tax consequences resulting from payment of an ABR will depend on the specific facts and circumstances, and consequently advice and guidance should be obtained from a personal tax advisor prior to the receipt of any payments. ABR payments may affect eligibility for, or amounts of, Medicaid or other benefits provided by federal, state, or local government. Death benefits and policy values, such as cash values, premium payments and cost of insurance charges if applicable, will be reduced if an ABR payment is made. ABR payments may be limited by the contract or by outstanding policy loans.
