

## Open additional features and flexibility based on funding patterns.

### Help your clients choose a funding pattern that best fits their budget and needs.

The flexibility and access to cash features offered with the Value+ Protector make the product attractive for multiple funding patterns.

Paying the benchmark premium provides a guaranteed death benefit to around life expectancy with attractive cash value to carry the policy to maturity. If you decide to fund the policy at a higher level, you open up additional access to cash features, provide greater flexibility, and more cash accumulation potential.

By paying a premium higher than the benchmark premium into Value+ Protector, the policy can provide:

- Extended guaranteed death benefit duration
- Higher cash accumulation
- Potential cash access from Strong Index Performance feature<sup>1</sup>
- Possible Paid-Up Additions from Strong Index Performance feature<sup>2</sup>
- Opportunity to use Excess Funding Feature<sup>3</sup>

Policies issued by American General Life Insurance Company (AGL), Houston, TX, except in New York, where issued by The United States Life Insurance Company in the City of New York (US Life), members of American International Group, Inc.

## See how higher premiums paid into Value+ Protector can grow cash value and extend the built-in guarantee.

What's better, Value+ Protector has attractive cash access features that allow you to take additional premium paid into the policy or excess cash value without reducing the death benefit or changing the guarantee period.
