

QUALITY OF LIFE...INSURANCE®

Maintaining quality of life when you need it most

“Having this money made a big difference to my family and me.”

Mixi Li, American General Life Insurance Company customer

As a small business owner, Mixi Li was a hardworking, busy man. He had a wife and son that he wanted to provide for and feared what would happen to his family if he wasn't able to take care of them. With the help of his friend and financial advisor, Mixi purchased Quality of Life... Insurance® policies from American General Life Insurance Company.

With his \$150,000 universal life policy and a \$500,000 term policy, he had the needed life insurance protection plus the policy's built-in living benefit protection.

Almost two years later, Mixi was diagnosed with cancer of the nasopharynx (nasopharyngeal carcinoma). He was only 48 years old and was concerned about what would happen to his family, his home and his business.

Mixi reached out to his financial advisor and discussed his qualifying critical illness and the options available to him. He chose to exercise the accelerated benefit option, and opted to take an immediate cash settlement. Mixi accepted the company's offer in cash

today instead of the full life insurance payment at his death. Mixi received \$430,378.54 from his term policy, and \$129,622.39 from his universal life policy for a total benefit of \$560,000.93.*

With the money he received, Mixi was able to stop working so he could focus on more important things like his treatments and getting well. His family didn't have to worry as much about making ends meet while he was not earning an income. In fact, he was able to use the money to completely pay off his mortgage and take care of his son's college tuition. His wife was also able to leave her job so she could help take care of him while he was undergoing cancer treatment.

Today, Mixi is a cancer survivor and thankful that he purchased these policies. Because he was able to pay off his mortgage, he and his wife are able to live without the burden of that debt. He says that he enjoys spending time with his family, swimming, hiking, shopping and just enjoying life.

*Mixi Li's benefit amount is not typical, but was based on his personal health situation. Your results will vary.

NOT Long-Term Care Insurance

This is a life insurance benefit that also gives you the option to accelerate some or all of the death benefit in the event that you meet the criteria for a qualifying event described in the policy. This policy or certificate does not provide long-term care insurance subject to California long-term care insurance law. This policy or certificate is not a California Partnership for Long-Term Care program policy. This policy or certificate is not a Medicare supplement policy.

An accelerated death benefit such as the Chronic Illness Accelerated Benefit Rider and long-term care insurance provide very different kinds of benefits:

Generally, an accelerated death benefit is a rider to or other provision in a life insurance policy that permits the policy owner to accelerate some or potentially all of the death benefit of a life insurance policy if the insured meets the definition of having a chronic illness as defined in the rider or policy provision. Acceleration of death benefits and payments under such an accelerated death benefit will reduce the death benefit of the policy and reduce other policy values as well, potentially to zero. If the entirety of the insurance amount is accelerated, the policy terminates.

A Long Term Care insurance policy is any insurance policy, certificate, or rider providing coverage for diagnostic, preventive, therapeutic, rehabilitative, maintenance, or personal care services that are provided in a setting other than an acute care unit of a hospital. Long-term care insurance includes all products containing any of the following benefit types: coverage for institutional care including care in a nursing home, convalescent facility, extended care facility, custodial care facility, skilled nursing facility, or personal care home; home care coverage including home health care, personal care, homemaker services, hospice, or respite care; or community-based coverage including adult day care, hospice, or respite care. Long-term care insurance includes disability based long-term care policies but does not include insurance designed primarily to provide Medicare supplement or major medical expense coverage.

If you are interested in long-term care, nursing home or home care insurance, you should consult with an insurance agent licensed to sell that insurance, inquire with the insurance company offering the accelerated death benefits, or visit the California Department of Insurance Internet Web site (www.insurance.ca.gov) section regarding long-term care insurance.

If you choose to accelerate a portion of your death benefit, doing so will reduce the amount that your beneficiary will receive upon your death.

Receipt of accelerated death benefits may affect eligibility for public assistance programs, such as Medi-Cal or Medicaid. Prior to electing to receive the accelerated death benefit, you should consult with the appropriate social services agency concerning how receipt of accelerated death benefits may affect that eligibility.

If the policy terminates, the Chronic Illness Accelerated Death Benefit Rider will also terminate.

LTC expense reimbursement vs. ADB benefits are paid without receipts. LTC benefits are based on benefit levels and a pool of money selected at the time of purchase, and ADB benefits depend on the life policy value. ADB benefits will reduce the death benefit that the policyholder's heirs will receive, and the use of the ADB proceeds is unrestricted, whereas LTC benefits will not reduce the death benefit that the policyholder's heirs will receive and the policyholder must use LTC benefits for LTC services.
