

Term conversion with the Accelerated Access Solution (AAS)

**What happens if you
need protection for a
longer period?**

**What if you want more
from your policy?**

The primary reason to buy life insurance is to provide a tax-free¹ death benefit to the ones you love – the people who depend on you. Your term life insurance policy from American General Life Insurance Company provides that coverage.

However, your policy protects you for a fixed number of years.

With the powerful new life insurance options that are available today, you can do much more than provide a death benefit to your loved ones. Consider converting your current policy to a permanent life insurance product.

And now you have the option of electing to add on chronic illness protection with the Accelerated Access Solution Chronic Illness rider if you meet the eligibility requirements below!

Think life insurance only pays out to your loved ones when you die?
Not anymore.

¹Term Life Death Benefits are excludable from your beneficiary's federal taxable income under most circumstances. You should consult your tax advisors for your specific factual situation.

Access your own life insurance benefits while living

By adding the Accelerated Access Solution (AAS) chronic illness rider to a select life insurance policy when you do a term conversion, you can access your income tax-free life insurance benefits, if diagnosed with a chronic illness.²

Should an eligible chronic illness occur, you can be paid monthly benefits until that illness improves or your AAS benefit is exhausted – whichever happens first. See full rider for details. It's a good option for consumers who understand the value and security of combining death benefit and chronic illness protection into one.

AAS provides freedom of choice

Unlike many long-term care reimbursement policies, AAS can be used to pay for any expense – even those unrelated to the illness. The use of accelerated death benefits is unrestricted:

- Adult daycare
- Assisted living or nursing home
- Massage therapy
- Prescription drugs
- Home maintenance (lawn, handyman, etc.)
- Home improvements (new furniture, upgraded shower, ramp installation, etc.)
- Gas for transportation to and from treatments
- Cash in the pocket of a friend or loved one taking time off work to assist in your care
- Care coordination services available – variety of optional and free support services available to you at time of claim
- Control how your own claim money is spent – money goes directly into your pocket, not the health provider or care facility
- You get what you pay for – your potential total AAS benefit matches the amount you select at time of purchase exactly, no need to guess what your total payout might be after fees and deductions.
- More flexibility than a “use it or lose it” long-term care policy – benefits are paid no matter what...either to the insured if they become chronically ill, or to your beneficiaries at the time of your death.⁶
- No receipts required – you don't need to show or tell us how you spend your money
- No waiting period – chronic illness benefits are available for activation as soon as the policy is issued, subject to eligibility

How it works

Using your benefit

- Multiple benefit payment options – three options available for monthly disbursement:³
 - 2% of the AAS benefit per month
 - 4% of the AAS benefit per month
 - IRS maximum per diem amount at time claim begins⁴
- Waiver of monthly deduction – if you file an approved chronic illness claim to access your money via your AAS rider, then you will not be responsible for paying policy deductions while you continue to access those benefits
- Flexible options with total benefit amount – select any amount between 50%-100% of the base policy life insurance benefit amount⁵

² If the annual amount received by the policy owner for chronic illness benefits from all applicable sources exceeds the actual cost of care in a year or exceeds the IRS per diem exclusion limit aggregated for the portion of the year during which the Insured Person was certified as being chronically ill, some of the benefits may be taxable. Policy owners should consult their own tax advisors regarding how receipt of the benefit will apply to their own tax situation.

³ Monthly benefit is capped at the [maximum IRS daily rate](#) at the time of claim.

⁴ All states where sold, except CA.

⁵ Insured must be certified as chronically ill by a licensed health care practitioner and meet all eligibility requirements.

⁶ Assumes all remaining premiums are paid on time and in full.

Becoming eligible

To activate the rider, an insured person must be certified by a licensed health care practitioner to be considered a “chronically ill person.” One of the following health impairment criteria must be met for a period of at least 90 consecutive days:

- The insured is unable to perform, without substantial assistance from another person, at least two of the Activities of Daily Living (ADLs):
 - Eating
 - Toileting
 - Transferring
 - Bathing
 - Continence
 - Dressing
- The insured requires substantial supervision from threats to health and safety due to a severe cognitive impairment (similar to Alzheimer’s and other forms of irreversible dementia) that is measured by clinical evidence and standardized tests measuring:
 - Short-term or long-term memory
 - Orientation as to people, places or time, and
 - Deductive or abstract reasoning

Chronic conditions do not need to be considered “life-long” or permanent in order to be eligible.

Once all criteria are met, monthly benefits may begin.⁷

Getting paid

Once the insured meets the health impairment criteria and benefits have been approved for payment, the following will occur in order:

- Payment of Accelerated Access Solution benefits, which are designed to be received income-tax-free⁸ will begin.

- Monthly deductions will be waived for as long as the policy owner meets the chronic illness requirements.
- The life insurance benefit will be reduced by each Accelerated Access Solution benefit amount paid to the policy owner.
- At death, any remaining life insurance benefit will be paid to your policy beneficiary income-tax-free.⁸

Your financial professional must add AAS and the free terminal illness rider to the life insurance policy at the time of the term conversion in order to be valid. The monthly cost of the rider will vary based on the AAS benefit amount selected, issue age, gender and underwriting class.

Eligibility

- Available on Select-a-Term policies issued within the previous 5 years and still within its convertible period
- Insured age 60 or younger
- Original policy issued at a standard or better underwriting classification (i.e. no substandard classes and no flat extras allowed)
- Cannot be the conversion of a child rider
- Permanent Policies available for conversion
 - Secure Lifetime GUL 3
 - Max Accumulator+ III
 - Value+ Protector III

Underwriting

Non Invasive Underwriting will be conducted to determine qualification for the AAS Rider at the time of the term conversion application. The applicant can be declined for the AAS Rider. If this were to happen the insured may still proceed with the term conversion but without the AAS Rider.

⁷ Insured must be certified as chronically ill by a licensed health care practitioner and meet all eligibility requirements.

⁸ Based on current federal income tax laws, policy owners should consult a qualified tax advisor.

(1) When filing a claim for Qualifying Critical Illness under a Critical Illness Accelerated Death Benefit Rider, for Qualifying Chronic Illness under a Chronic Illness Accelerated Death Benefit Rider or for Qualifying Terminal Illness under a Terminal Illness Accelerated Death Benefit Rider, the claimant must provide to the Company a completed claim form and then-current Certification which must be received at its Administrative Center.

(2) If a benefit under the Critical Illness Accelerated Death Benefit Rider is payable, the Company will provide the Owner with one (1) opportunity to elect a Critical Illness Accelerated Benefit Amount as to the occurrence of the Qualifying Critical Illness in question. To make such an election, the Owner must complete an election form and return it to AGL within the Election Period set forth in the rider (i.e., within 60 days of the owner's receipt of the election form).

The Company will not provide a later opportunity to elect a Critical Illness Accelerated Benefit Amount under a Policy as to the same occurrence of a Qualifying Critical Illness.

(3) If a benefit under the Chronic Illness Accelerated Death Benefit Rider or under the Terminal Illness Accelerated Death Benefit Rider is payable, the Company will provide the Owner with an opportunity to elect a Chronic Illness Accelerated Benefit Amount as to the Qualifying Chronic Illness in question or to elect a Terminal Illness Accelerated Death Benefit Amount as to the Qualifying Terminal Illness in question, as applicable. To make an election, the Owner must complete an election form and return it to AGL within 60 days of the Owner's receipt of the election form.

(4) Under certain circumstances where an insured's mortality (i.e., our expectation of the insured's life expectancy) is not significantly changed by a Qualifying Critical Illness or a Qualifying Chronic Illness and, notwithstanding the Minimum Accelerated Benefit Amount provision, the accelerated benefit may be zero.

(5) See your policy for applicable requirements concerning claim and election forms for accelerated death benefits.

(6) Benefits payable under an accelerated death benefit rider may be taxable. Neither American General Life Insurance Company nor any agent representing it is authorized to give legal or tax advice. Please consult a qualified legal or tax advisor regarding questions concerning the information and concepts contained in this material.

(7) Generally, we will send you an IRS Form 1099-LTC if you receive an accelerated death benefit on account of a Chronic Illness or a Terminal Illness. We will send you an IRS Form 1099-R if you receive an accelerated death benefit on account of a Critical Illness. The sum that will be included in Box 2 (Accelerated death benefits paid) of IRS Form 1099-LTC or in Box 1 (Gross distribution) of IRS Form 1099-R will be the actual sum you received by check or otherwise minus any refund of premium and/or loan interest included with our benefit payment plus any unpaid but due policy premium, if applicable, and/or pro rata amount of any loan balance.

(8) The maximum amount of life insurance death benefits that may be accelerated as to an Insured Person under all accelerated benefit riders is the lesser of the existing amount of such death benefits or a lifetime maximum of \$2,000,000.

(9) See your policy for details.

Accelerated Access Solution (AAS)

This is a life insurance benefit that also gives you the option to accelerate some or all of the death benefit in the event that you meet the criteria for a qualifying event described in the policy. This policy or certificate does not provide long-term care insurance subject to California long-term care insurance law. This policy or certificate is not a California Partnership for Long-Term Care program policy. This policy or certificate is not a Medicare supplement (policy or certificate).

The Accelerated Access Solution (AAS) is an optional living benefit rider that is available on the insurance policy issued by American General Life Insurance Company in the state of California. The Accelerated Access Solution is a life insurance rider that accelerates a portion of a policy's death benefit when an insured meets the health impairment criteria set forth in the rider.⁹ Control over how money is spent is up to the policy holder: there are no receipts required and no restrictions on what the money is used for once the policy owner has been certified as eligible to receive AAS benefits. Benefits are paid directly to the policyholder for as long as the criteria are met, or until the AAS benefit amount is exhausted, whichever occurs first. Acceleration of death benefits and payments under such an accelerated death benefit will reduce the death benefit of the policy and reduce other policy values as well, potentially to zero. If the entirety of the insurance amount is accelerated, the policy terminates.

Payout Options - CA Only

Multiple benefit payment options are available with two options for monthly disbursement at the time of purchase:

- 2% of AAS benefit
- 4% of AAS benefit

The monthly benefit under any of the options above is also capped at \$10,000 increased annually by 4% until the date the initial benefit period begins.

Alternatively, you have the option at the time of claim to receive the accelerated benefit in a lump sum payment in lieu of the benefits payable under the monthly payment option you selected. Such lump sum benefit will be subject to an actuarial discount that is determined by the company at the time you become eligible for benefits under the rider¹⁰

Benefit Payment - CA Only

Once the insured meets the health impairment criteria and benefits have been approved for payment, they may select their disbursement. There is a maximum benefit payable under the monthly disbursement option that we'll notify the insured of at their time of claim. The insured may also select a smaller amount than the maximum monthly benefit. A lump sum option is available as well, which can be substituted for monthly benefits.

Tax Implications

There are no restrictions or limitations on the use of the accelerated death benefit proceeds under the Chronic Illness Accelerated Death Benefit Rider. The accelerated benefits payable under this rider are generally intended for favorable tax treatment under Section 101(g) of the Internal Revenue Code. There may be tax consequences in some situation in accepting an accelerated benefit payment amount, such as where payments exceed the per diem limitation under the Internal Revenue Code. You should consult your personal tax advisor to assess the impact of this Benefit prior to accepting the Benefit.

⁹ Insured must be certified as chronically ill by a Licensed Health Care Practitioner and meet all eligibility requirements and the condition need not be permanent.

¹⁰ The Company will determine the actuarial discount applicable to a given lump sum payment using factors including, but not limited to the Company's assessment of the expected future mortality of the Insured and an interest rate determined as described in the rider.

Policies issued by **American General Life Insurance Company (AGL)**, Houston, TX except in New York, where issued by **The United States Life Insurance Company in the City of New York (US Life)**.
