

# Early Cash Value Rider

## Rider Highlights

The optional rider available on Max Accumulator+ III policies is designed to allow for higher early cash surrender values. This rider enhances the policy's cash surrender value by waiving all surrender charges upon full surrender of the policy, unless surrender is associated with a 1035 Exchange. During the first 7 years, the rider also provides an Early Cash Value Benefit so that the cash surrender value is never less than 50% of the total premiums paid, as long as the Continuation Premium Test under the rider is met.
