

## QoL Max Accumulator+ III

# More reasons than ever to be your go-to product for accumulation sales

1

### Competitive income potential

Highly competitive in LIRP designs, QoL Max Accumulator+ III was designed for robust income performance in all scenarios.

2

### 68% of eligible IUL cases are approved without labs through our Agile Underwriting+ (AU+) program<sup>1</sup>

This improves the customer experience, increases placement, and shortens the time to issue (most applications are approved in 3 to 5 days). Applicants must be ages 18-59 and applying for \$2 million or less, see [IUL and AU+: A Winning Combination](#) flyer for more details.

3

### Commitment to offering diversification options

Since the new AG49A went into effect, many carriers have de-emphasized volatility control indices (VCIs) – which were often the primary indices presented prior to the new regulation. QoL Max Accumulator+ III and its VCIs were designed with consistency in mind and continue to illustrate well and continue to provide valuable diversification and volatility mitigation.

4

### Valuable & innovative features including built-in and optional living benefits<sup>2</sup> to help you cover qualifying chronic, critical and terminal illnesses

<sup>1</sup> Through-put rates for all IUL products as of August 1, 2023. Foreign Nationals and Opt-outs are not included.

<sup>2</sup> An Accelerated Death Benefit Rider (ABR) is not a replacement for Long Term Care Insurance (LTCI). It is a life insurance benefit that gives you the option to accelerate some of the death benefit in the event the insured meets the criteria for a qualifying event described in the policy. Some ABRs are conditioned upon the insured not being able to perform two or more of the activities of daily living or being cognitively impaired. The activities of daily living are bathing, continence, dressing, eating, toileting, and transferring. This ABR pays proceeds that are intended to qualify for favorable tax treatment under section 101(g) of the Internal Revenue Code. The federal, state, or local tax consequences resulting from payment of an ABR will depend on the specific facts and circumstances, and consequently advice and guidance should be obtained from a personal tax advisor prior to the receipt of any payments. ABR payments may affect eligibility for, or amounts of, Medicaid or other benefits provided by federal, state, or local government. Death benefits and policy values, such as cash values, premium payments, and cost of insurance charges if applicable, will be reduced if an ABR payment is made. ABR payments may be limited by the contract or by outstanding policy loans. For more information about ABR's please visit: [CorebridgeFinancial.com/QoL](https://CorebridgeFinancial.com/QoL)
