Is your future protected?

Consider if your retirement income should be.

With American Pathway fixed annuities you have guaranteed growth, protection, and income choices to fit your specific needs.

The best tomorrows start with action today.

A bright future is waiting

As you look ahead, there are retirement challenges to consider:

- People are living longer and could outlive their retirement income
- Healthcare costs are rising
- Market downturns can impact the value of your retirement assets

The good news is that a well-balanced retirement portfolio can help protect you from these challenges.

Consider taking action for the future with protected income and tax-deferred growth

Adding a fixed annuity to your retirement strategy can provide confidence knowing your money is protected from market ups and downs because it's not invested in the stock market.

American Pathway annuities are designed for flexibility to help you meet your financial goals with a choice of initial interest rate periods for guaranteed interest earnings.

With American Pathway annuities you can expect:

Keep more of your money working for you

Your American Pathway guaranteed fixed rate of interest helps grow your money tax-deferred. Over time, your money compounds at a faster rate than it would in a taxable account.

Here's why

- With a fixed annuity you won't have to pay current taxes on any interest or earnings until money is withdrawn
- Money that would have gone to pay federal income taxes stays in the account earning interest

The power of tax-deferred growth

For illustrative purposes only. Performance is not guaranteed. This hypothetical example assumes a \$100,000 single premium earning 3%, during a 20-year period, 24% income tax rate and no withdrawals.

Does not reflect the performance of any particular product and does not take into account the differences in risk, maturity and credit quality when comparing identical tax-deferred and taxable yields. Results will vary.

Keep in mind, if you take money out of the annuity before age 59½, the IRS considers the withdrawal a "premature distribution" and you may be required to pay a 10% federal early withdrawal tax penalty. A product early withdrawal charge and market value adjustment (if applicable) may also apply.

Sometimes life changes, we have you covered

After a certain time period, you can withdraw money from your American Pathway annuity without withdrawal charges.*

Built-in protection

- When life brings unexpected health issues you can take free withdrawals in case you need extended care or are diagnosed with a terminal illness. See the product overview for full details. These protections are not available in all states.
- Take free withdrawals up to the interest you've earned OR up to a certain percentage of the contract's previous anniversary contract value. The percentage allowed varies by American Pathway products.
- If you don't need to use all the free withdrawal amount in a contract year, in some cases, you may carry over the unused portion to the next contract year, increasing the amount available to you.

Start income when the time is right for you

When you're ready for retirement income, American Pathway annuities provide an option to permanently convert your contract value into a series of guaranteed income payments. This is called the annuitization process. Keep in mind, once you annuitize the contract, you will have guaranteed income for the period you choose but will no longer have access to the contract value.

The amount of each guaranteed income payment is based on the payment option you choose:

- Life only: Income payments for as long as you live
- Life only with a guaranteed period: Income payments for as long as you live and if the guaranteed period you select has not expired at the time of your death, payments will continue to your beneficiary for the remainder of the guaranteed period
- Fixed period: Income payments for a specific amount of time that you choose – from five to 20 years
- Fixed amount: You decide the amount of income to receive. Payments continue for a minimum of five years and maximum of 20 years in the amount you select until the money and interest earned is depleted

*Some annuities have no withdrawal charges. See the product overview for the American Pathway fixed annuity you are considering for details.

Single and joint life income options are available. Once payments begin, the payout option cannot be changed. For IRA contracts, the maximum, guaranteed or fixed payment period is limited to 10 years.

Understanding fixed annuities

A fixed annuity is a contract between you and an insurance company that, in exchange for your premium (earning a fixed rate of interest), offers a stream of guaranteed income payments.

Annuities are long-term products designed for retirement.

Retirement accounts such as IRAs can be tax deferred regardless of whether or not they are funded with an annuity. The purchase of an annuity within an IRA does not provide additional tax-deferred treatment of earnings. However, annuities do provide other features and benefits.

Withdrawals may be subject to federal and/or state income taxes. A 10% federal early withdrawal tax penalty may apply if taken before age 59½ in addition to ordinary income tax. Partial withdrawals may reduce benefits and contract value.
