# Product features at-a-glance

<b>Death benefit</b>	Greater of the annuity contract value or Minimum Withdrawal Value
<b>Required Minimum Distributions (RMDs)</b>	Withdrawal charges and MVA will not apply to RMDs attributable to the contract. RMDs count against the Free Withdrawal Amount and the Maximum Annual Withdrawal Amount (if a guaranteed living benefit rider is elected). Failure to satisfy the RMD requirements may result in a tax penalty.
<b>Market Value Adjustment (MVA)</b>	Applies to any withdrawals subject to withdrawal charges. Increases or decreases the withdrawal amount to reflect interest rate changes based on an external index stated in the contract. Not applicable in all states.
<b>Waiver of withdrawal charge and MVA</b>	Withdrawal charge and MVA may be waived for certain withdrawals if the contract owner is diagnosed with a terminal illness (Terminal Illness Rider) or has extended care needs (Extended Care Rider). Riders may not be available in all states or firms. Restrictions and limitations apply. See the Owner Acknowledgment and Disclosure Statement for details
<b>Minimum Withdrawal Value</b>	87.5% of premiums less net withdrawals (withdrawals after the effect of any withdrawal charge and MVA), growth at an annual rate as specified in the contract.
<b>Cash surrender value</b>	Greater of 1) contract value, adjusted for any applicable withdrawal charges and MVA; or 2) Minimum Withdrawal Value.
<b>Annuitization</b>	Life income; joint and survivor annuity; joint and survivor annuity with 10- or 20-year period certain; life annuity with 10- or 20-year period certain; and income for a specified period (5-30 years). Clients lose access to contract value with annuitization.

# Lifetime Income Plus Flex and Lifetime Income Plus Multiplier Flex

<b>Activation</b>	Must be requested in writing via a Corebridge Financial form
<b>Eligible premiums</b>	All premiums paid in the contract's first 30 days. Included in the Income Base and Income Credit Base
<b>Enhanced Income Benefit (Confinement Rider)</b>	Beginning on the second contract anniversary, clients have the opportunity to receive enhanced income of up to 200% of their MAWA on or after GLB rider activation. Clients must be confined to a qualified facility such as a nursing home for at least 90 days to be eligible for this benefit. The enhanced income will not be treated as an excess withdrawal and is available for up to five contract years or the depletion of the contract value, if sooner. The confinement rider is not long-term care insurance and is subject to other restrictions and limitations. Please see the contract and Owner's Acknowledgment and Disclosure Statement for details.
<b>Issue age</b>	50 – 78
<b>Income flexibility</b>	<ul style="list-style-type: none"> <li>• Withdrawals taken prior to rider activation will not reduce the 8.5% income credit rate (Lifetime Income Plus Flex) or the Double (x2) feature (Lifetime Income Plus Multiplier Flex). However, the Income Base and Income Credit Base are reduced in the same proportion by which the withdrawal reduces the contract value.</li> <li>• Clients can take withdrawals prior to rider activation without locking in their MAWA.</li> </ul>
<b>Single and Joint Life coverage</b>	Coverage is elected at contract issue. However, changes may be made at the time of activation or under certain situations prior to activation, such as marriage, divorce or death of a spouse. No changes are allowed after activation. Other limitations and restrictions apply.
<b>Rider fees</b>	1.10% of the Income Base. Deducted from the contract value on each contract anniversary or on a pro-rata basis if the contract is fully surrendered before the end of the contract year.

# Important information about selling index annuities

Index annuities are fixed deferred annuities. It's important that producers properly position these products when selling to clients. Because index annuities are not subject to federal and state securities registration requirements, the way in which a product is marketed can directly impact the determination of whether it is considered to be a security. Therefore, all producers should be aware of the following guidelines for marketing index annuity products.

- Index annuity products should be properly positioned as fixed deferred annuities and not as any other kind of product
- They should not be marketed as being equivalent to or as a substitute for equity investments (such as mutual funds, securities, and investment in the market, etc.)
- The marketing and sales process should speak to the guaranteed features of the product without unduly emphasizing the possibility of index crediting or implying linkage to equities
- The overall focus of any marketing, including any sales presentations, should be the long-term retirement aspects of index annuities, such as minimum guaranteed surrender values, annuity payout options and the safety and stability of insurance products in general
- Index interest crediting rates may differ when the guaranteed living benefit rider is elected.

# Key terms and definitions

**Excess Withdrawal:** Any withdrawal in excess of the Maximum Annual Withdrawal Amount.

**Enhanced Income Benefit (Confinement Rider):** A feature that is automatically included with Lifetime Income Plus Flex and Lifetime Income Plus Multiplier Flex for no additional fee. It provides enhanced income if the client is confined to a qualified facility such as a nursing home.

**Enhanced participation rate (EPR):** A participation rate that is higher than those offered in traditional participation rate accounts. It gives clients the opportunity to earn more interest in up markets. The EPR is available in select index interest accounts for an annual fee.

**GLB Rider Activation:** The decision to activate or turn on the rider's stream of guaranteed lifetime income. Clients must notify us in writing to begin taking lifetime withdrawals.

**Income Base:** The value on which guaranteed withdrawals and the rider fee are based; it is not used in the calculation of the contract value or any other benefits under the contract and cannot be withdrawn partially or in a lump sum.

**Income Credit:** The amount that may be added to the Income Base on contract anniversaries.

**Income Credit Base:** A component of the rider that is used to calculate the annual income credit.

**Index Rate Cap:** The maximum amount of interest that can be credited to an index interest account over an index term

**Maximum Annual Withdrawal Amount:** The maximum amount of income that can be taken each year once the rider has been activated without reducing the Income Base and Income Credit Base.

**Participation Rate:** The percentage of index performance used to calculate interest

**Performance Triggered Rate:** A preset rate guaranteed to be credited when index performance is flat or positive. This rate is credited even if index return is higher. No interest is credited if index return is negative.

**Premium Enhancement:** Amount that may be added to the contract (also known as a bonus)\*.

**Premium Enhancement Recapture:** Premium enhancements are subject to an 8-year recapture schedule. A portion of the premium enhancement will be recaptured on a pro-rata basis if the contract is annuitized or surrendered, or if withdrawals exceed the 5% Free Withdrawal Amount taken prior to the end of the 8th contract year. Pro-rata means the premium enhancement will be reduced by the same percentage that the withdrawal in excess of the Free Withdrawal Amount reduced the contract value.

**Spread:** Minimum percentage or threshold that the index's performance must exceed to be credited interest.

Note: Enhanced Participation Rate (EPR) accounts are available for an annual fee. Clients may receive higher interest credits in EPR accounts, but interest credits are not guaranteed. At the end of the contract's withdrawal charge period, if the total amount of EPR strategy fees exceeds the total interest earned in the annuity, the difference will be credited to the annuity.

\*Only available in Power Select Builder 8.

Index annuities are not a direct investment in the stock market. They are long-term insurance products with guarantees backed by the claims-paying ability of the issuing insurance company. They provide the potential for interest to be credited based in part on the performance of the specified index, without the risk of loss of premium due to market downturns or fluctuations. Index annuities may not be appropriate for all clients.

Withdrawals may be subject to federal and/ or state income taxes. An additional 10% federal tax may apply if clients make withdrawals or surrender their annuity before age 59½. Clients should consult a tax advisor regarding their specific situation.

Annuities are issued by **American General Life Insurance Company (AGL)**, Houston, TX. AGL is a member of Corebridge Financial, Inc. The underwriting risks, financial and contractual obligations and support functions associated with the annuities issued by AGL are its responsibility. Guarantees are backed by the claims-paying ability of AGL. AGL does not solicit, issue or deliver policies or contracts in the state of New York. Annuities and riders may vary by state and are not available in all states. This material is not intended for use in the state of Idaho or New York.
