The Power Series of Index Annuities®

Lifetime Income Choice®

Guarantee growth of your retirement income

INVESTMENT AND INSURANCE PRODUCTS ARE:

- NOT FDIC INSURED
- NOT INSURED BY ANY FEDERAL GOVERNMENT AGENCY
- NOT A DEPOSIT OR OTHER OBLIGATION OF, OR GUARANTEED BY, ANY BANK OR ANY OF ITS AFFILIATES
- SUBJECT TO INVESTMENT RISKS, INCLUDING POSSIBLE LOSS OF THE PRINCIPAL AMOUNT INVESTED

Index annuities are issued by **American General Life Insurance Company** (AGL), Houston, TX.
Guarantees are backed by the claims-paying ability of AGL. Not available in New York.

What are index annuities and how can they help increase your retirement income?

An index annuity (also known as a fixed index annuity or FIA) is a type of annuity designed for long-term savings. It is a contract between you and an insurance company. In exchange for your premium (the money you allocate), the FIA can help grow your assets, based partly on the performance of an index, while protecting your principal against market downturns. The FIA also offers lifetime income through annuitization for no cost or through an optional feature called the guaranteed living benefit (GLB) rider for an annual fee.

A Power Series Index Annuity with the Lifetime Income Choice GLB rider guarantees that your Income Base—the amount from which lifetime withdrawals are calculated—will increase by 10.50% every year that you wait to begin lifetime withdrawals. When it's time to take income, you'll be able to receive up to 11.75% of the Income Base per year for life, according to the schedule below.

Maximum percentage you can take out each year with Lifetime Income Choice based on a percentage of the Income Base

Age	Max Income				Level Income			
	Single Life		Joint Life		Single Life		Joint Life	
	MAWP	PIPP	MAWP	PIPP	MAWP	PIPP	MAWP	PIPP
75 and older	11.75%	6.00%	11.25%	5.50%	9.25%	9.25%	8.75%	8.75%
70 to 74	10.60%	6.00%	10.10%	5.50%	8.60%	8.60%	8.10%	8.10%
65 to 69	9.40%	6.00%	8.90%	5.50%	7.90%	7.90%	7.40%	7.40%
60 to 64	7.60%	5.00%	7.10%	4.50%	6.60%	6.60%	6.10%	6.10%
50 to 59	6.60%	5.00%	6.10%	4.50%	6.10%	6.10%	5.60%	5.60%

Scan code for current rates

Note: Rates are as of October 12, 2026, and subject to change at any time. Please scan the quick response (QR) code or click this link to see current rates.

Note: Max Income may not generate more cumulative income than the Level Income option. Table Definitions:

- Age is the age of covered person(s) at the time of activation. If there are two covered persons, the age of the younger of the two covered persons is used to determine the withdrawal percentage.
- Single Life and Joint Life refer to the number of individuals covered under the rider.
- MAWP is the Maximum Annual Withdrawal Percentage, the maximum amount you can withdraw each year from Lifetime Income Choice while the contract value is positive.
- PIPP is the Protected Income Payment Percentage, which is the guaranteed percentage that you will receive each year once the contract value is depleted.

If there are two covered persons, the age of the younger of the two covered persons is used to determine the maximum annual withdrawal percentage.
See back cover for Key Terms and Definitions and more information about the Power Series of Index Annuities.

Add certainty, choice, and flexibility to your retirement income strategy

The Power Series of Index Annuities offer accumulation and income solutions designed for retirement planning. They can help grow your assets, based partly on the performance of an index, while protecting your principal against market downturns. They also offer lifetime income through annuitization for no additional cost or through a feature known as a guaranteed living benefit (GLB) rider for an annual fee.

A Power Series Index Annuity with the
Lifetime Income Choice GLB rider[1] offers:

Guaranteed income growth credited daily

10.50%

Income Credits every year, for up to 10 years or until lifetime income begins[3]

Lifetime Income Choice provides potentially higher income than many traditional fixed income instruments.

Choice of two lifetime income options[2]

Max Income Option

11.75%

Annual withdrawals for more income early in retirement (age 75+, single life)[4]

Level Income Option

9.25%

Annual withdrawals for a stable stream of lifetime income (age 75+, single life)[5]

With either option, you have the flexibility to take withdrawals prior to activation and to adjust the number of individuals covered under the rider.[3,5]

Note: Rates are as of October 12, 2026, and subject to change at any time. Please scan the QR code on page 2 or click this link to see current rates.

See back cover for Key Terms and Definitions and more information about the Power Series of Index Annuities.

[1] Lifetime Income Choice is automatically included at contract issue in select Power Series Index Annuities for an annual fee of 1.10% of the Income Base.

[2] Max Income or Level Income must be elected at contract issue and cannot be changed after election.

[3] Activation is the decision to begin lifetime withdrawals under Lifetime Income Choice. Annual Income Credits are amounts that may be added to the Income Base every year and are calculated as a percentage of the Income Credit Base. The Income Base is the amount on which lifetime withdrawals are based; it is not your contract value and cannot be withdrawn. To receive the full benefit of Lifetime Income Choice, withdrawals must be taken within the parameters of the contract. Withdrawals prior to activation and excess withdrawals after activation will reduce your guaranteed income for life.

[4] The 11.75% withdrawal rate for the Max Income option is only effective until the contract value is depleted due to withdrawals and/or fees, after which the Protected Income Payment Percentage (PIPP) is paid. The Max Income option may not provide more cumulative income than the Level Income option.

[5] The maximum amount you can take out per year depends on your age at the time of activation and the number of individuals covered. See the withdrawal table on page 2 for more information.

Maximize income early in retirement

With the Max Income option, your Income Base—an amount initially equal to your premium and used to calculate lifetime income—increases by a 10.50% Income Credit every year, up to 10 years prior to activating income.

MAX INCOME

The Max Income option helps you optimize income during the early years of retirement, when spending tends to be the highest. With high initial withdrawal rates of up to 11.75%, you may need less money to generate the income you want. Plus, should your contract value become depleted, you're guaranteed to receive the Protected Income Payment Percentage (PIPP) of up to 6.00% for life (see hypothetical example below and withdrawal table on page 5).

Year	Age	Interest Earned[6]	Contract Value[7]	Income Credit	Income Base	Annual Income for Life	Annual Income for Life
At issue	60	—	$100,000	—	$100,000	—	—
1	61	3.00%	103,000	10.50%	110,500	—	—

						Total Income:	**$187,880**

- Maximum Annual Withdrawal Percentage (MAWP)
- Protected Income Payment Percentage (PIPP)

Guaranteed income growth

You're guaranteed to receive a 10.50% Income Credit every year, up to 10 years prior to activation.

Max Income

You can take out 9.40% at age 65 (single life) or $14,335 per year until your contract value is depleted.

Protected income for life

You're guaranteed 6.00% or $9,150 per year for life once the contract value drops to zero.

Hypothetical example assumptions: Max Income option, $100,000 premium, issue age 60, single life, 3.00% interest earned, no withdrawals before activation at age 65 and no excess withdrawals after activation.

[6] Interest earned is the interest credited to the annuity each year. It is assumed to be constant at 3.00% per year in this hypothetical example. Actual interest earned is based on the index interest account selected, the performance of the specific index and any contract provisions such as index rate caps that may limit the upside potential. Interest earned will never be less than zero in flat or down markets.

[7] Contract value will decline due to fees and withdrawals taken within the terms of the rider. Examples assume that no Enhanced Participation Rate accounts with fees are selected.

Guarantee steady income for life

Like Max Income, the Level Income option guarantees 10.50% growth of your retirement income every year, up to 10 years until lifetime income begins.

LEVEL INCOME

The Level Income option is designed to provide consistent income for life, even after your contract value is depleted. As the hypothetical example below shows, if you allocate $100,000 at age 60 and wait 5 years to begin lifetime withdrawals, your Income Base will grow by a 10.50% Income Credit each year, increasing to $152,500 and guaranteeing you $12,048 for life ($152,500 x 7.90% = $12,048).

Year	Age	Interest Earned[6]	Contract Value[7]	Income Credit	Income Base	Annual Income for Life	Annual Income for Life
At issue	60	–	$100,000	–	$100,000	–	–
1	61	3.00%	103,000	10.50%	111,000	–	–
2	62	3.00%	104,838	10.50%	122,000	–	–
3	63	3.00%	106,612	10.50%	133,000	–	–
4	64	3.00%	108,321	10.50%	144,000	–	–
5	65	3.00%	109,961	10.50%	152,500	7.90%	$12,048
6	66	3.00%	99,124	–	152,500	7.90%	12,048
7	67	3.00%	87,961	–	152,500	7.90%	12,048
8	68	3.00%	76,463	–	152,500	7.90%	12,048
9	69	3.00%	64,620	–	152,500	7.90%	12,048
10	70	3.00%	52,422	–	152,500	7.90%	12,048
11	71	3.00%	39,857	–	152,500	7.90%	12,048
12	72	3.00%	26,916	–	152,500	7.90%	12,048
13	73	3.00%	13,587	–	152,500	7.90%	12,048
14	74	3.00%	–	–	152,500	7.90%	12,048
15	75	–	–	–	152,500	7.90%	12,048
16	76	–	–	–	152,500	7.90%	12,048
17	77	–	–	–	152,500	7.90%	12,048
18	78	–	–	–	152,500	7.90%	12,048
19	79	–	–	–	152,500	7.90%	12,048
20	80	–	–	–	152,500	7.90%	12,048
● **7.90%** lifetime withdrawals at activation						**Total Income:**	**$192,760**

Guaranteed income growth

You're guaranteed to receive a 10.50% Income Credit every year, up to 10 years prior to activation.

Level Income

You can take out 7.90% at age 65 (single life) or $12,048 per year for life.

Protected income for life

Your annual income continues, even after your contract value drops to zero!

Hypothetical example assumptions: Level Income option, $100,000 premium, issue age 60, single life, 3.00% interest earned, no withdrawals before activation at age 65 and no excess withdrawals after activation.

Note: Rates are as of October 12, 2026, and subject to change at any time. Please scan the QR code on page 2 or click this link to see current rates.

Increase flexibility and protection of your retirement income

Lifetime Income Choice offers you the opportunity to adjust coverage or take withdrawals prior to activating lifetime income if your circumstances change. You'll be able to:

- **Change the number of individuals covered** under the rider (single or joint life) to help meet varying income needs or to address life events such as marriage.[8]
- **Enjoy daily growth** for the time already earned if you activate income at any point between contract anniversaries.
  - For example, if you activated your income six months after the contract anniversary, your Income Base would be credited an additional 5.25% (i.e. half of the annual 10.50% income base credit)
- **Access your money prior to activating lifetime income** without eliminating the doubling feature.[9]
- **Take pre-activation withdrawals** without locking in a lower withdrawal rate for life.

Capitalize on the Enhanced Income Benefit to help with assisted living care

Lifetime Income Choice can increase your income to 200% of the maximum annual withdrawal percentage (single life, 150% for joint life) if you are confined to a qualified facility for at least 90 days. This feature is automatically included with the GLB rider for no additional fee and begins on or after the second contract anniversary. For example, if you were receiving $7,000 as annual income and became eligible for the benefit, you may withdraw up to $14,000 per year. The Enhanced Income Benefit is available for up to five contract years or the depletion of the contract value, if sooner; it is not long-term care insurance and may not be available in all states. Please see your contract and the Owner Acknowledgment and Disclosure Statement for more information.

[8] If there are two covered individuals, they must be a married couple. Generally, if a change to a covered person occurs upon activation or due to a life event, at least one of the original covered persons must remain on the contract. The new covered person must have been at least 50 as of the original contract issue date and cannot be older than age 80 at the time he or she is added to the contract. Available coverage options may vary depending upon individual circumstances as of the activation date.

[9] Pre-activation withdrawals taken within the parameters of the contract will not reduce the 10.50% Income Credit rate, but they will reduce the Income Base and Income Credit Base in the same proportion that they reduced the contract value. There are no further Income Credits after you activate lifetime income.

CASE STUDY

A flexible living benefit that can adapt as life changes

Meet Mike—at age 55, he buys a Power Series Index Annuity

Mike elects the single life option of Lifetime Income Choice to provide retirement income he won't outlive.

Age 55

Age 59

Mike marries Claire

Mike has the flexibility to add his wife and change his coverage to joint life.

Age 61

Mike and Claire purchase a new house

They take out money prior to starting lifetime income without eliminating their 10.50% Income Credit.

Age 65

Mike and Claire begin joint lifetime income

They activate their GLB and take income for the rest of their lives.

Age 75

Increase Income by up to 200% when care is needed

Enhanced income begins when Mike is confined to a nursing home and can last for up to 5 years.

Note: This case study is hypothetical and does not represent an actual case.

Ensure that your retirement income will grow every year until lifetime income begins

Contact your financial professional or agent to learn more.

Understanding the Power Series of Index Annuities and Lifetime Income Choice

The Power Series of Index Annuities are fixed index annuities (FIAs) issued by **American General Life Insurance Company** (AGL). FIAs are not direct investments in the stock market or any particular index. They are long-term insurance products with guarantees backed by the claims-paying ability of the issuing insurance company. In exchange for your money (premium), the FIA provides you with the opportunity to earn interest based on a fixed rate or specific indices without the risk of loss of premium due to market downturns or fluctuations. Index annuities may not be suitable or appropriate for all clients. When you need income, AGL promises to make regular income payments through annuitization that can last five years to life or through guaranteed lifetime income under the GLB rider. Lifetime Income Choice is a feature of the Power Series of Index Annuities and cannot be purchased without the index annuity.

Key Terms and Definitions

Activation: The decision to begin lifetime withdrawals under the Max Income or Level Income option. Activation must be requested in writing. At the time of activation, you will have an opportunity to make changes to the number of individuals covered under Lifetime Income Choice. You can also change this coverage prior to activation under specific situations such as marriage, divorce or death. The ability to make changes is subject to certain limitations. The maximum annual withdrawal percentage is determined by the age of the covered person(s) upon activation.

Death Benefit: The amount the beneficiary would receive upon death of the contract owner. With Lifetime Income Choice, your beneficiary will receive at least your contract value. Specifying a beneficiary can help avoid the potential costs and delays of probate.

Eligible Premium: The money used to purchase the annuity. Eligible premiums are all premiums received in the first 30 days of the contract and do not include Income Credits. Eligible premiums become your initial Income Base and Income Credit Base.

Excess Withdrawals: Withdrawals that exceed the Maximum Annual Withdrawal Amount (MAWA) once lifetime income is activated. Excess withdrawals will eliminate the Income Credit and reduce the Income Base and Income Credit Base in the same proportion by which the contract value is reduced by the excess withdrawal. If an excess withdrawal reduces the contract value to zero, the contract and rider will terminate and you will no longer be eligible to take withdrawals or receive lifetime income payments.

Guaranteed Living Benefit (GLB) Rider: A feature that provides enhanced lifetime income for an annual fee. With a GLB rider, you retain access to your principal, even after the rider is activated and lifetime withdrawals begin.

Income Base: The value on which guaranteed withdrawals and the annual rider fee are based; it is not a part of the contract value and cannot be withdrawn partially or in a lump sum. The Income Base is initially equal to the first eligible premium and is increased each time an eligible premium is made. It is also adjusted for withdrawals (prior to activation) and excess withdrawals (after activation). On each contract anniversary, your Income Base may increase with any available Income Credits.

Income Credit: An amount that may be added to your Income Base. It is not a rate of return and is not added to your contract value or death benefit. It is calculated as a percentage of the Income Credit Base. The Income Credit Base and therefore the Income Credit are reduced proportionately for withdrawals taken prior to activation. An Income Credit is not available in years an excess withdrawal is taken.

Income Credit Base: A component of the rider that is used solely to calculate the Income Credit.

Maximum Annual Withdrawal Percentage: The maximum percentage you can withdraw each year from Lifetime Income Choice (once the rider is activated and while contract value remains positive) without reducing your Income Base and Income Credit Base. Prior to beginning lifetime income, you have the option to take partial withdrawals without locking in your Maximum Annual Withdrawal Percentage, but these withdrawals will reduce the value of your Income Base, Income Credit Base and Income Credit. Please see the Owner Acknowledgment and Disclosure Statement for details.

Protected Income Payment (PIP): The maximum amount you can receive each year once the contract value goes to zero.

Single and Joint Life: The number of individuals covered under the rider. This coverage is elected at the time of contract issue, but may be changed upon activation or under certain situations such as marriage, divorce or death. See the Owner Acknowledgment and Disclosure Statement for more information.

Spousal Continuation: Upon death of the contract owner, the spousal beneficiary has the option to continue the contract with the GLB rider benefits, as long as death occurs prior to activation. See the Owner Acknowledgment and Disclosure Statement for more information.

Withdrawal Charges: Charges that may apply when certain withdrawals are taken from a Power Series Index Annuity. Please see your contract and the Owner Acknowledgment and Disclosure Statement for more information on company-imposed charges. See below for tax implications of withdrawals.

This material is general in nature, was developed for educational use only, and is not intended to provide financial, legal, fiduciary, accounting or tax advice, nor is it intended to make any recommendations. Applicable laws and regulations are complex and subject to change. Please consult with your financial professional regarding your situation. For legal, accounting or tax advice, consult the appropriate professional.

The Power Series of Index Annuities are issued by **American General Life Insurance Company** (AGL), Houston, Texas. Power Series Modified Single Premium Deferred Fixed Index Annuity, Contract numbers: AG-800 (12/12) and AG-801 (12/12).

Withdrawals may also be subject to federal and/or state income taxes. An additional 10% federal tax may apply if you make withdrawals or surrender your annuity before age 59½. Consult your tax advisor regarding your specific situation.

All contract and optional benefit guarantees, including any fixed account crediting rates or annuity rates, are backed by the claims-paying ability of the issuing insurance company. They are not obligations of or backed by the distributor, insurance agency or any affiliates of those entities and none makes any representations or guarantees regarding the claims-paying ability of the issuing insurance company.

AGL is a member company of Corebridge Financial, Inc. The underwriting risks, financial and contractual obligations and support functions associated with the annuities issued by AGL are its responsibility. Guarantees are backed by the claims-paying ability of AGL. AGL does not solicit, issue or deliver policies or contracts in the state of New York. Annuities and riders may vary by state and are not available in all states. This material is not intended for use in the state of Idaho or New York.
