

Advisory Annuities

In today's unpredictable market environment, many fee-only advisors are turning to the powerful combination of benefits that only annuities can offer. Our innovative solutions, designed to fit your business model, can help clients achieve better outcomes—including principal protected accumulation, reduction of interest rate risk and effective hedges against longevity risk.

Power Index Advisory®

This index annuity can help provide the growth potential clients are seeking today, while protecting their principal in volatile markets. It also provides opportunities for protected lifetime income.

This material is general in nature, was developed for educational use only, and is not intended to provide financial, legal, fiduciary, accounting or tax advice, nor is it intended to make any recommendations. Applicable laws and regulations are complex and subject to change. For legal, accounting or tax advice clients should consult the appropriate professional.

Annuities are long-term insurance products designed for retirement.

Retirement accounts such as IRAs can be tax deferred regardless of whether or not they are funded with an annuity. The purchase of an annuity within an IRA does not provide additional tax-deferred treatment of earnings. However, annuities do provide other features and benefits.

Early withdrawals may be subject to withdrawal charges. Withdrawals of taxable amounts are subject to ordinary income tax and, if taken prior to age 59½, an additional 10% federal tax may apply. Optional features are subject to additional fees, restrictions and limitations.

The purchase of an annuity is not required for, and is not a term of, the provision of any banking service or activity.

Important Notes: Index annuities are not a direct investment in the stock market. They are long-term insurance products with guarantees backed by the claims-paying ability of the issuing insurance company. They provide the potential for interest to be credited based in part on the performance of the specified index, without the risk of loss of premium due to market downturns or fluctuations. Index annuities may not be appropriate for all clients.

Annuities are issued by **American General Life Insurance Company** (AGL), Houston, TX). Guarantees are backed by the claims-paying ability of the issuing insurance company.
